

Thomas Huang

thomaskhuangg@gmail.com | thomhuang.com | github.com/thomhuang

Skills

Languages: C#, Go, SQL, TypeScript

Frameworks: .NET, React, Next.js

Cloud & Data: AWS SQS, DynamoDB, MySQL, Redis, Snowflake, Azure OpenAI

Concepts: REST APIs, WebSockets, JWT Authentication, Event-Driven Architecture, Prompt Engineering, MCP Tooling, Observability, Datadog

Experience

Software Engineer, Homes.com, CoStar Group – Irvine, CA August 2023 – Present

- Architected a **.NET/C#** WebSocket gateway connecting frontend clients with **Azure OpenAI**, using **Redis**-backed per-session context management, dynamic context injection, and session cleanup to support coherent concurrent LLM conversations
- Implemented prompt-engineering strategies and **MCP** tools for LLM-powered Homes.com workflows, supporting structured tool calls and application-specific context
- Engineered **C#** scheduled-job services integrating **MySQL** and the **Criteo API** to process data pipelines and support targeted ad campaigns for user acquisition
- Built **AWS SQS**-driven pipelines that processed user alerts and new listings, upserted records into **MySQL** and **DynamoDB**, and triggered **Bing IndexNow API** submissions to improve crawl coverage
- Designed **REST APIs** in **C#** powering mobile app features and user impression logging for Homes.com

Software Engineer Intern, Imprint – Remote January 2020 – May 2020

- Contributed to a **Next.js** CRM application managing accounts for 300K+ customers using **React** and **TypeScript**
- Engineered the end-to-end onboarding flow for account.imprint.co, spanning landing page, account creation, and user verification

Projects

Personal Website thomhuang.com

- Built and deployed a personal website with **React** and **TypeScript**, featuring **JWT**-based authentication, database-backed coffee entries, and a **Go** web server hosted on Fly.io with the frontend on Vercel

Education

University of California, Los Angeles – B.S. in Applied Mathematics, Specialization in Computing March 2023
